

Privacy Policy

Aux Clash uses the Spotify Web API to search for songs based on user submissions, and to create and edit public and private playlists at the user's request. By using Aux Clash, you agree to the use of your account through the Spotify Web API.

None of the account data used by Aux Clash is stored or collected, and it is not shared with any third parties. The information is only used on your personal device to search for songs and to create playlists when you give permission.

If at any point you wish to remove Aux Clash's permissions to connect on Spotify, you can do so [here](#).

For any questions, please [contact us](#).
